File No 330/04

Title Heading

Proposal to combine general instruction with manual training in the ~~weaving institute~~ Anglo Vernacular at Hole Narsipur

From

The Inspectress of Education in Mysore

No 10023/622 Dated 12 5 05 Received 16 5 05

Diary No 7836	Enclos	Spare Copies	Serial No 1

Brief Abstract of Letter

Submits a scheme for combining general instruction with manual training in the Hole Narsipur ~~weaving institute~~ Anglo Vernacular

NOTES AND ORDERS

To carry out the proposal, the Inspectress reports that all that is needed at the first start is to indemnify the proprietors of the institute for the wastage caused by the learners

Notes—First sheet

al the rate of 8 annas a month subscription. The Inspectress recommends a monthly grant of Rs 20/- on the assumption that 40 boys will learn work in the Hole Narsipur weaving institute which is in receipt of a monthly grant of Rs 60/- from Local Funds General

What are the conditions on which the grant is to be given to the Weaving Sch at Chr Putr? See file also

Instead of indirectly increasing the grant as now suggested by the Inspectress General, the 10 scholarships (5 of 2 Rs each & 5 of 3 Rs each) now allowed to the boys of the Weaver Caste to learn weaving on fly shuttle looms may be reduced by 5 of 3 Rs each and the amount viz Rs 15/ thus saved utilized towards keeping the Sapperment of Conlemning General with special instructions to the large no of boys attending the lower primary branches of the Anglo Vernacular School It cannot take more than 6 months for a boy of the Weaver Caste to learn weaving on fly shuttle looms & therefore the

For a large Place like Kolar Narsipur, the No of Scholarships seem already small and I would not still further reduce it. If the time required is only 6 months, (even the most I am very sceptical), 20 students will be trained every year with the amount now available. I would deal with the present proposal on its own merits and not mix it up with the Scholarships now allowed. Mr Bhabha's idea is in my opinion a good one and may be tried with advantage at Kolar Narsipur. The maximum amount likely to be required is only Rs 20. & the actual

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

No. 10023/622 Langalore, 190

Camp Nandidrug 12 May 1930

From

H J BHABHA Esq
Inspector General of Education in Mysore

To

R. Venkatarama Iyengar Esq
Secretary to the Government of Mysore
the Department of Agriculture and General
Departments Bangalore

SIR,

I have the honour to inform you that the Hole-Narsipur Weaving Institute which is conducted by Government is held in the same building as one of the Lower Primary Branches of the Hole-Narsipur Anglo-Vernacular School. At my inspection last month the attendance in the Branch School which was greatly diminished by the fact that the people who had camped out on account of plague had not returned to town was as follows - I Standard 18 Infant B 14 Infant A 19. The majority of the boys in these classes are sons of weavers and it seems to me that if they are given general instruction in important subjects from 7 to 10 A.M. and excused afternoon school from 3 to 5 P.M. they may work in the Weaving Institute from 5 to 8 P.M. There are several processes subsidiary to weaving such as spinning twisting reeling &c suitable for little boys at which they can work. As the boys grow old enough to work at a loom they may also learn weaving on the fly-shuttle loom. Such an arrangement will provide manual and technical training for the boys in combination with general education in school. The whole course of general instruction for the Infant A and B classes and the I class extends over 22 22 and 23 hours a week respectively of which 18 hours a week in the mornings can be retained and for five days in the week from 3 to 5 P.M. some special instruction in the process of weaving

weaving can be practically imparted

2 I beg to propose that this combination of general with special or manual instruction may be tried at Hole-Narasipur It is bound to be acceptable to the parents, will infuse into little boys the love of manual work, while the amount of general instruction lost will be inappreciable I find that most boys of the weaver caste leave school after passing the II Vernacular Standard to help their parents at home By the combination of special with general instruction the boys may be induced to stay at school longer and to receive more of general instruction than at present and at the same time they will get used to the kind of manual work their parents value most

3 To carry out this idea all that is necessary at the first start is to indemnify the proprietor of the Weaving Institute for the wastage caused by young learners at the rate of 8/as per month If about 40 boys learn work in the Weaving Institute I recommend that a special grant of Rs 20 for these boys may be sanctioned from the Local Funds General As much of the grant will be utilised as is necessary, the grant being calculated at the rate of 8/as per head When the boys are able to do appreciable work the proprietor of the institute promises to pay them as wages the value of the ork turned out.

4 If the experiment of combining general with special instruction succeeds in Hole-Narasipur, it may also be tried in connection with the other weaving schools at Melkote Doddaballapur Chiknaikanhal and Molakalmuru The Bengal Government I believe is prepared to try such a combination in towns and villages containing a large populatio of weave s

5 I have only to add that in the afternoon school one class may be retained in place of three for the general instruction of such boys as do not work in the Weaving Institute and the two teachers who will have no work in the afternoon may supervise the manual work of the boys in the Weaving Institute

I have the honour to be
Sir
Your most obedient servant

H J Bhabha

Inspector General
